### **Description**

The Classroom Assessment Tool (“Tool”) has been built as a comprehensive test for educators to assess and gauge the readiness of their students to write the Canadian Practical Nurse Registration Examination (CPNRE) or as a comprehensive end-of course examination. It is a 100 item multiple choice test that is built according to the published blueprint of the CPNRE. It is only available as an online examination.

The CPNRE Classroom Assessment has been similarly designed as the online Predictor Tests (see [www.cpnre.ca](http://www.cpnre.ca) to see the two different products). Based on the research done by Assessment Strategies Inc. (“ASI”), the Predictor Tests are 89% accurate in predicting a student’s pass/fail status on the CPNRE. However the Predictor Test is not secure since it is available for purchase by anyone and is typically taken in an unsupervised environment. The Classroom Assessment is intended to mimic to the extent possible an actual exam administration situation. For example, the Classroom Assessment does not permit students to review their individual test items to see which questions they answered correctly or incorrectly whereas the Predictor Test does. It provides a student’s total score and their probability of passing the CPNRE, as well as the student’s score in each of the competency categories of the CPNRE blueprint.

ASI has responded with this Classroom Tool which is only available to appropriate purchasers (e.g., educators) who are prepared to safeguard the confidentiality of the test content. For this reason, as part of the order form, ASI will require a signed Confidentiality Undertaking by an appropriate authority.

Furthermore, as part of the process, the exam administration guidelines for educators are to be followed. Written permission must be sought and approved by ASI for any deviation from these guidelines.

### **Confidentiality Undertaking**

Whereas the test questions contained in the Tool are expensive to produce, highly confidential, proprietary and subject to copyright laws, and whereas many schools are relying on the integrity of this Tool, therefore:

- I undertake and agree that in consideration for the right to purchase the Tool that I will maintain the security of the information contained within the tests; not to allow any printing, production, reproduction, publication or disclosure of test questions or any description of their content, in part or in whole.
- I also agree as part of this confidentiality undertaking to administer the Tool in accordance with the exam administration guidelines for educators that are attached. I understand that the test questions are being delivered in an online format and I undertake not to permit any electronic copies of test questions to be retained or printed in any form whatsoever.
